

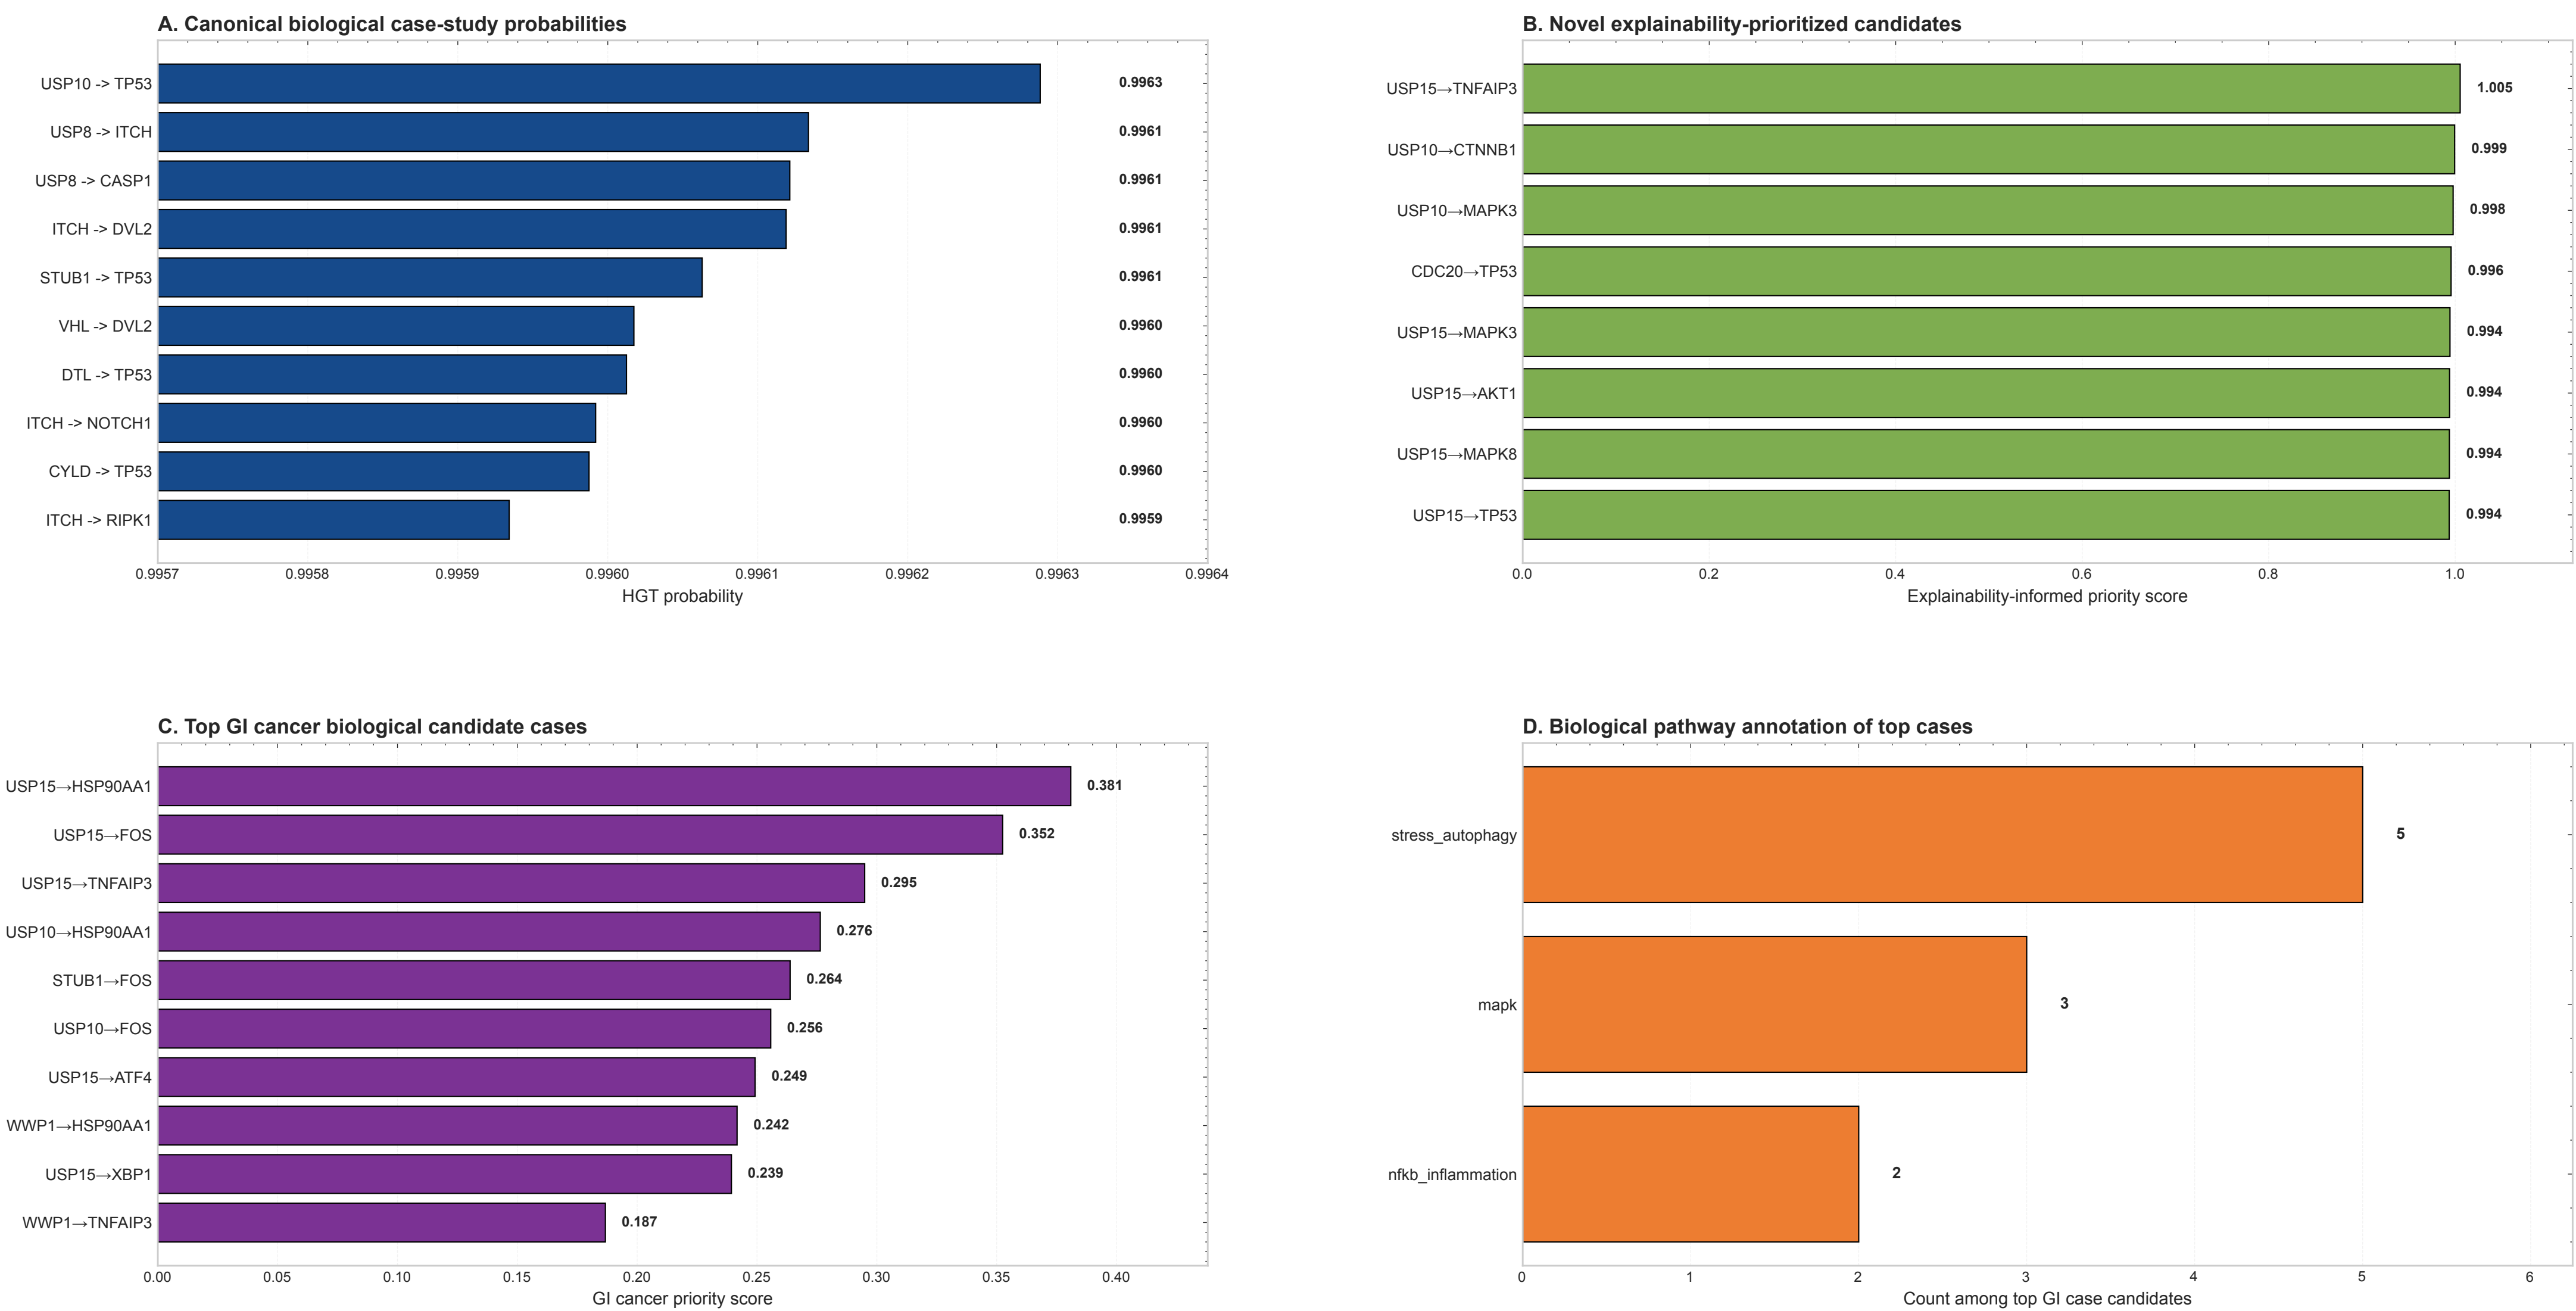

Figure 10. Case-study interpretation of validated and novel E3/DUB–substrate interactions

E. Case-study interpretation summary

Item	Value
Highest canonical case probability	0.9963
Top canonical case	USP10 -> TP53
Top novel explainability case	USP15→TNFAIP3
Top GI biological candidate	USP15→HSP90AA1
Dominant pathway in top GI cases	stress_autophagy
