

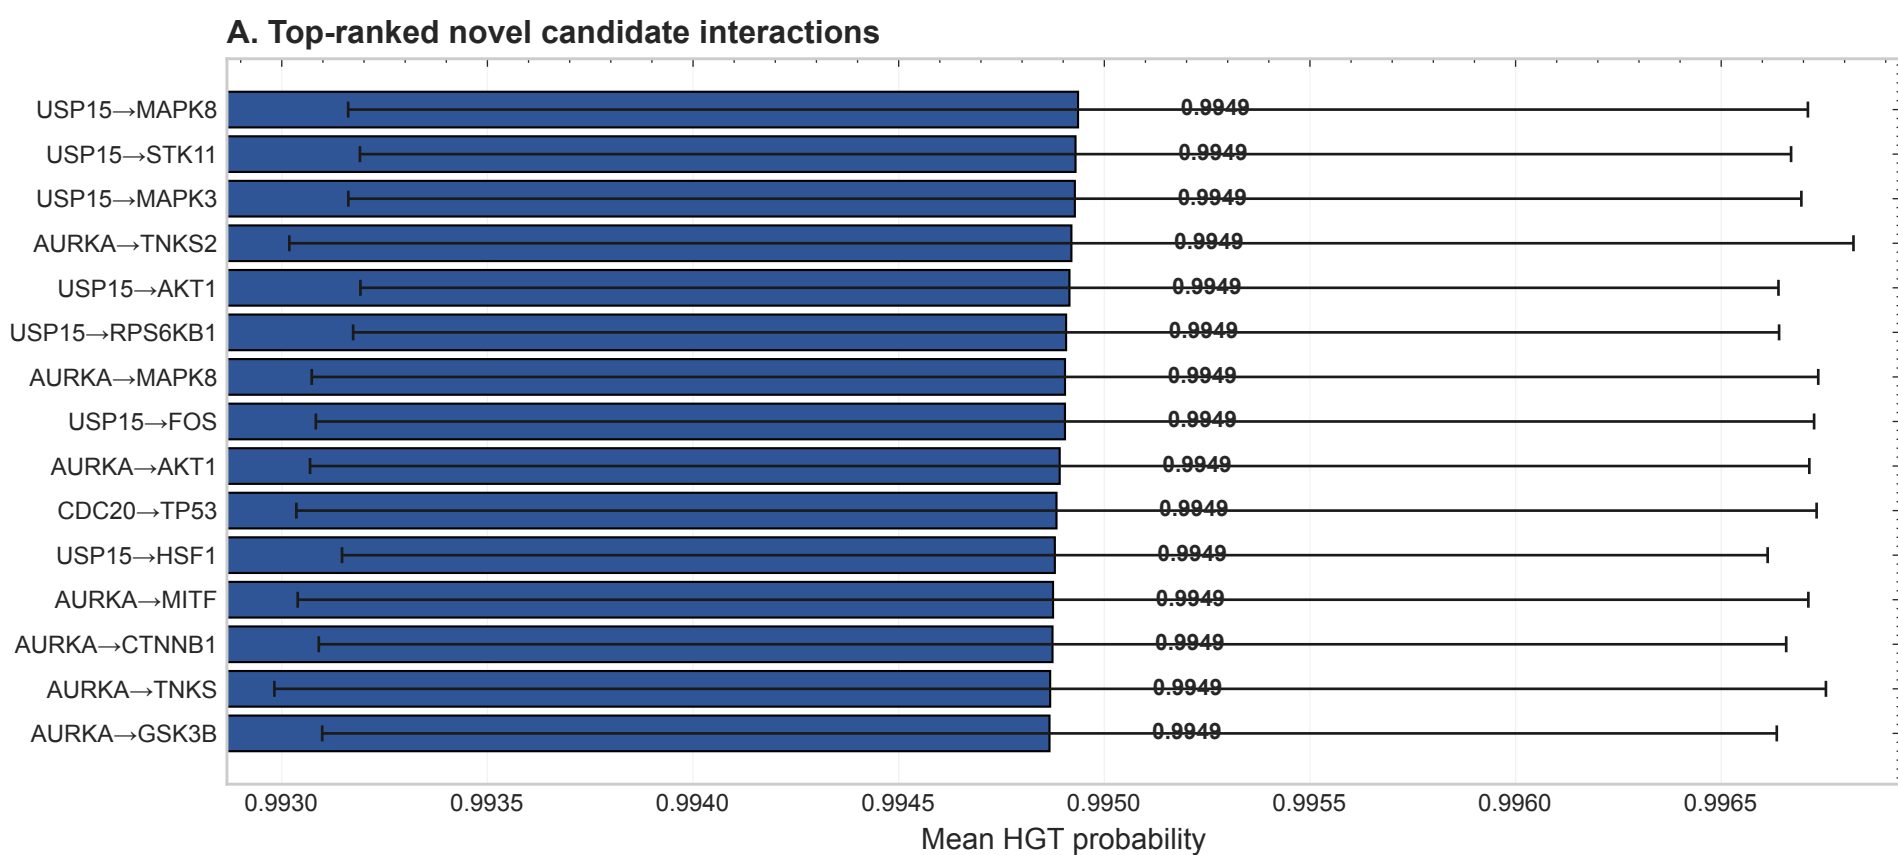

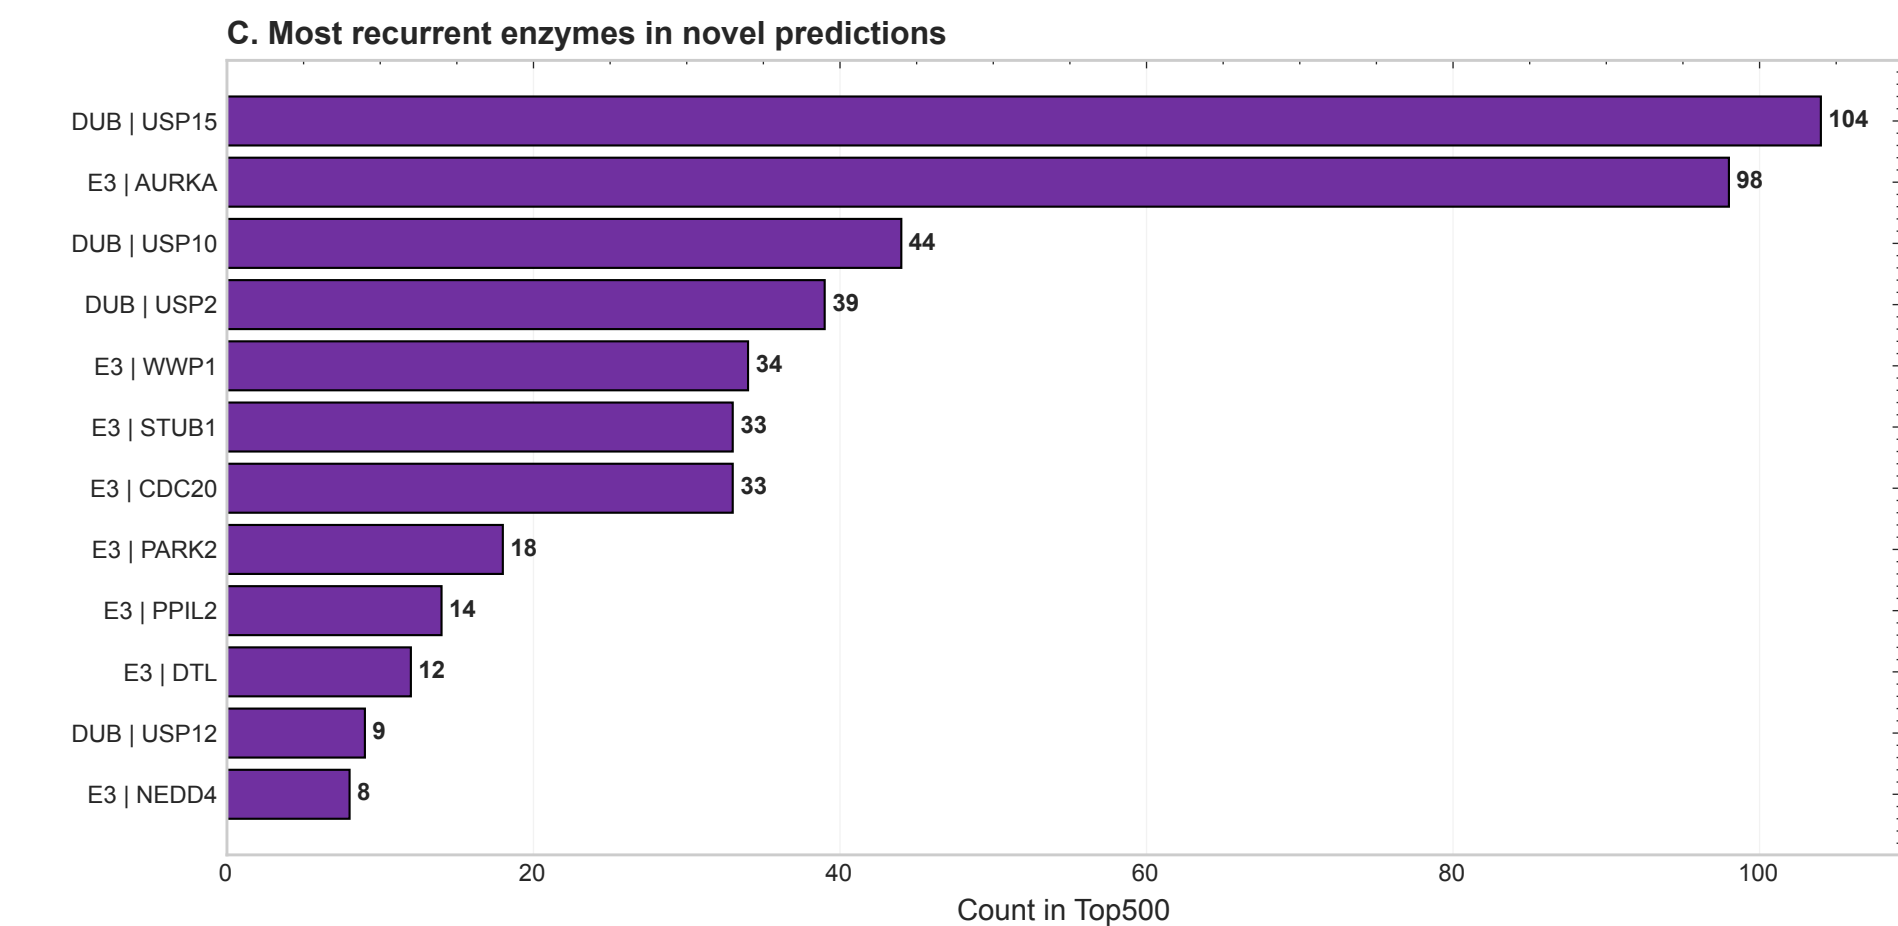

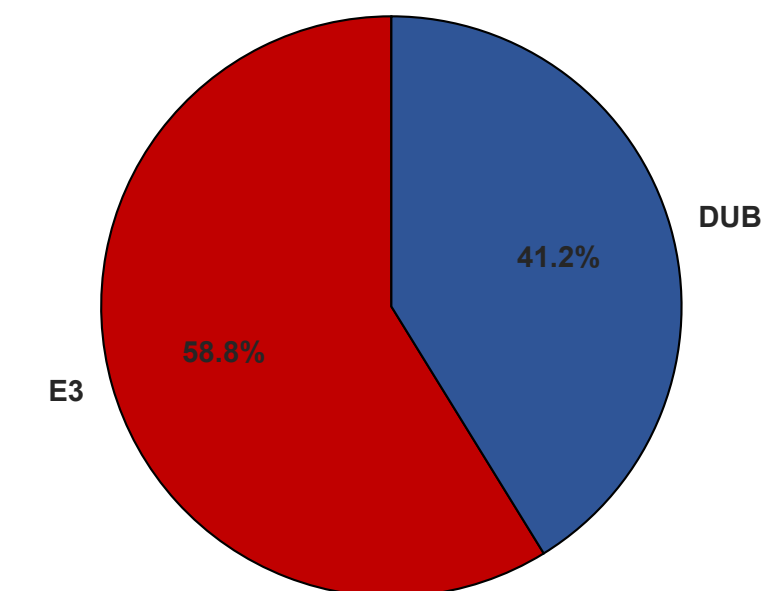

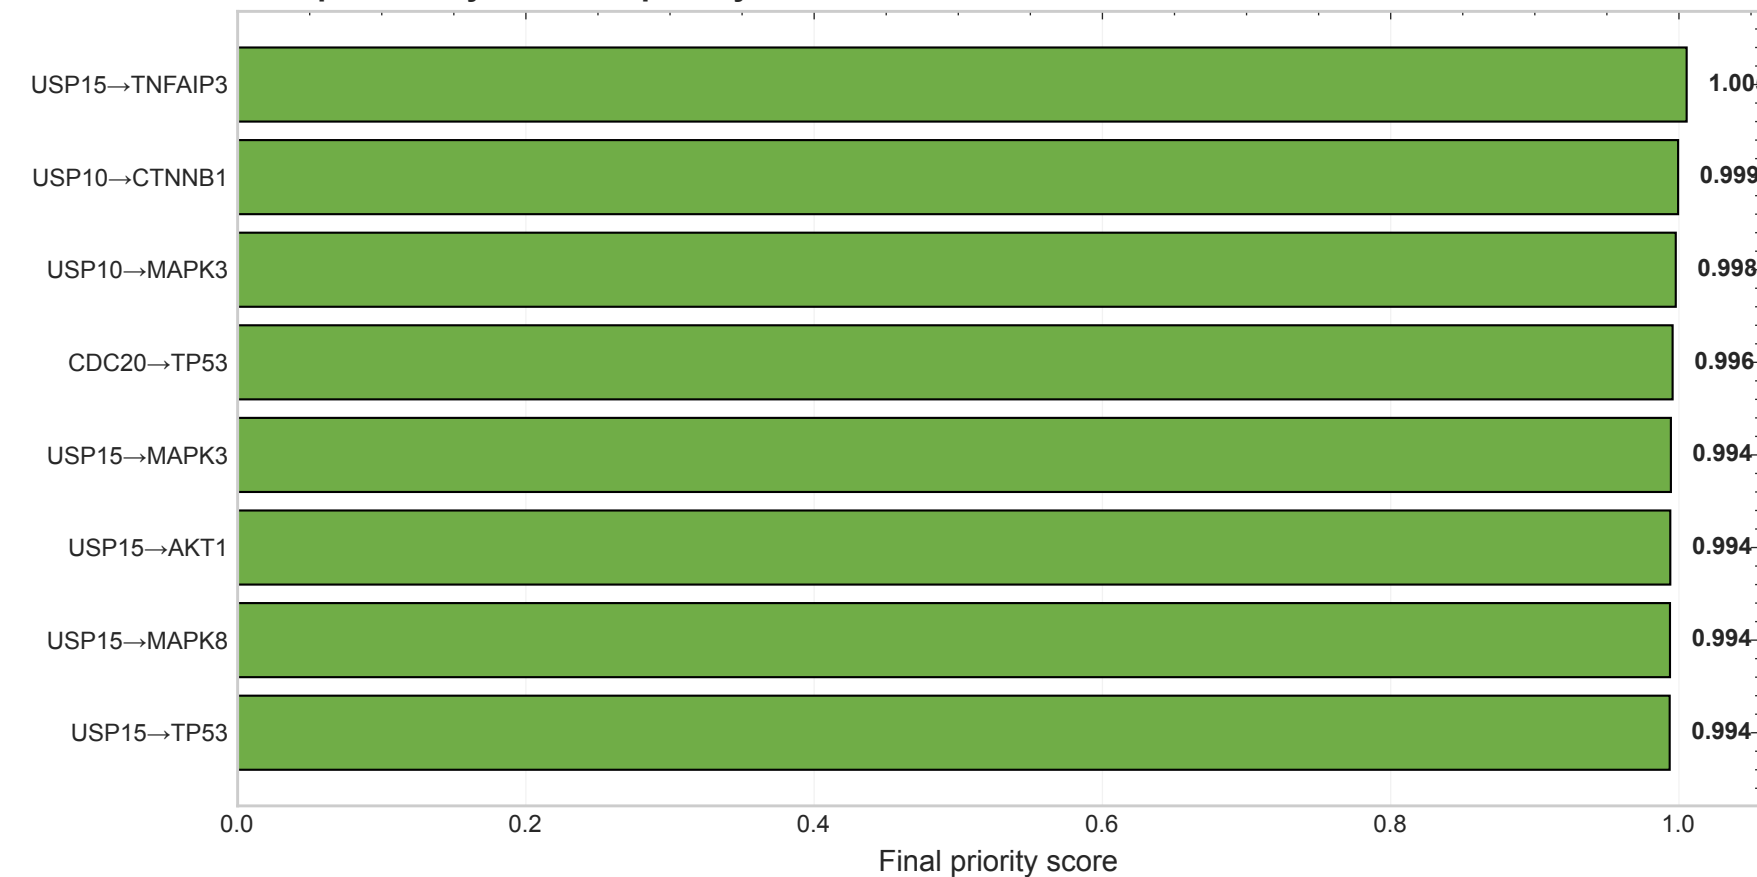

Figure 8. Novel E3/DUB-substrate interaction discovery

B. Enzyme-class composition of Top500 novel predictions

D. Explainability-informed priority candidates

E. Novel discovery summary

Item	Value
Scored candidate space	500+
Top novel predictions shown	500
Highest HGT probability	0.9949
Dominant enzyme in Top500	USP15
Top priority candidate	USP15→TNFAIP3
